- Material UI
- Problem Solving

PROJECTS

Twitter Clone Application
Technologies Used: React.js, Material UI, Tailwind CSS
Built a responsive social media app with React.js, featuring tweet posting functionality. Designed an intuitive UI using Material UI and Tailwind CSS for a modern user experience. Managed routing with React Router and deployed the project using GitHub

Eshop E-commerce
Technologies: HTML, CSS, JavaScript, Tailwind CSS
Developed a responsive eCommerce website with product filtering, and dynamic cart features And Use Local Storage For Product Details. Focused on performance optimization and user-friendly layout with HTML and CSS

Weather API
Technologies Used: HTML, CSS, JavaScript, Open Weather API
Integrated a weather API using Fetch API to retrieve and display real-time weather data dynamically.

Implemented responsive design and user-friendly features for seamless interaction with the application.

Note App

Technologies: HTML, CSS, JavaScript

Developed a notes app with the ability to add and delete notes. Used local storage to ensure data persistence, providing a simple and effective way for users to manage their notes.
